## GREG DISCH WORKSHOP

### 2-DAY WORKSHOP • Beginners Adobe Lightroom Classic

Saturday & Sunday, **March 15 & 16**, 9AM-5PM

This will be the same popular workshop led by GREG DISCH one year ago.

**COST:** \$249 for SWMCC members. We ask for solid commitments by next meeting, Thursday, FEBRUARY 13th. You may pay with cash/check during the February 13th meeting or coming soon through website with PayPal (online convenience fee must apply to cover additional costs to the club).

**LOCATION:** Candlewood Suites, 1035 E. Republic Road in Springfield. Available for those pre-paid and registered only. (NOTE: Refunds only available if someone takes the vacated spot.)

### WORKSHOP SUMMARY:

This will be a 2-day workshop with hand-on classroom training led by expert instructor, Greg Disch. Participants will actually walk through the entire process and develop a digital workflow on their own computer with their own images. We will learn to organize our entire photo library using the powerful database tools of Lightroom Classic. Plus learn how to use the Develop Module to process Images to achieve the best Image possible. New to Lightroom Classic? Greg will guide group members with in-person hands-on training to quickly get each attendee up to speed.

### KEY FEATURES TO BE COVERED:

- Catalogs and File Management
- Local Adjustments with AI Masking
- Create HDR Images
- Create Panorama Images
- Geocode Your Photos

### ESSENTIAL INFO:

- You must bring your laptop with current version of Adobe Lightroom Classic already installed. This is a hand-on training.
- Remember your computer power cable too.
- There will be an hour lunch break each day.

**GREG DISCH** is a freelance photographer based in Fort Smith, Arkansas. His workshops have small class sizes which provide an optimum student to instructor ratio for personalized attention.

## EXHIBITS

### Upcoming Exhibits:

- ❖ **Joplin Library** – Opening on 3/6/2025 5:30-7:00 Light snacks and beverages provided
- ❖ **Republic Library** – Opening on 3/8/2025 10:00-Noon Presentation on Abstract Photography by Jane Ballard at 10:30
- ❖ **Gailey's Breakfast Café**  
 Club Exhibit

## **How to Resize and Rename Your Image Files for SWMCC and PSA Competitions**

ALWAYS read the submission instructions for all exhibits, competitions, and other entries!

These are the requirements for the Southwest Missouri Camera Club Quarterly Competitions, Scavenger Hunt entries, and our PSA Interclub Competitions!

**LIGHTROOM**

Under FILE - EXPORT -

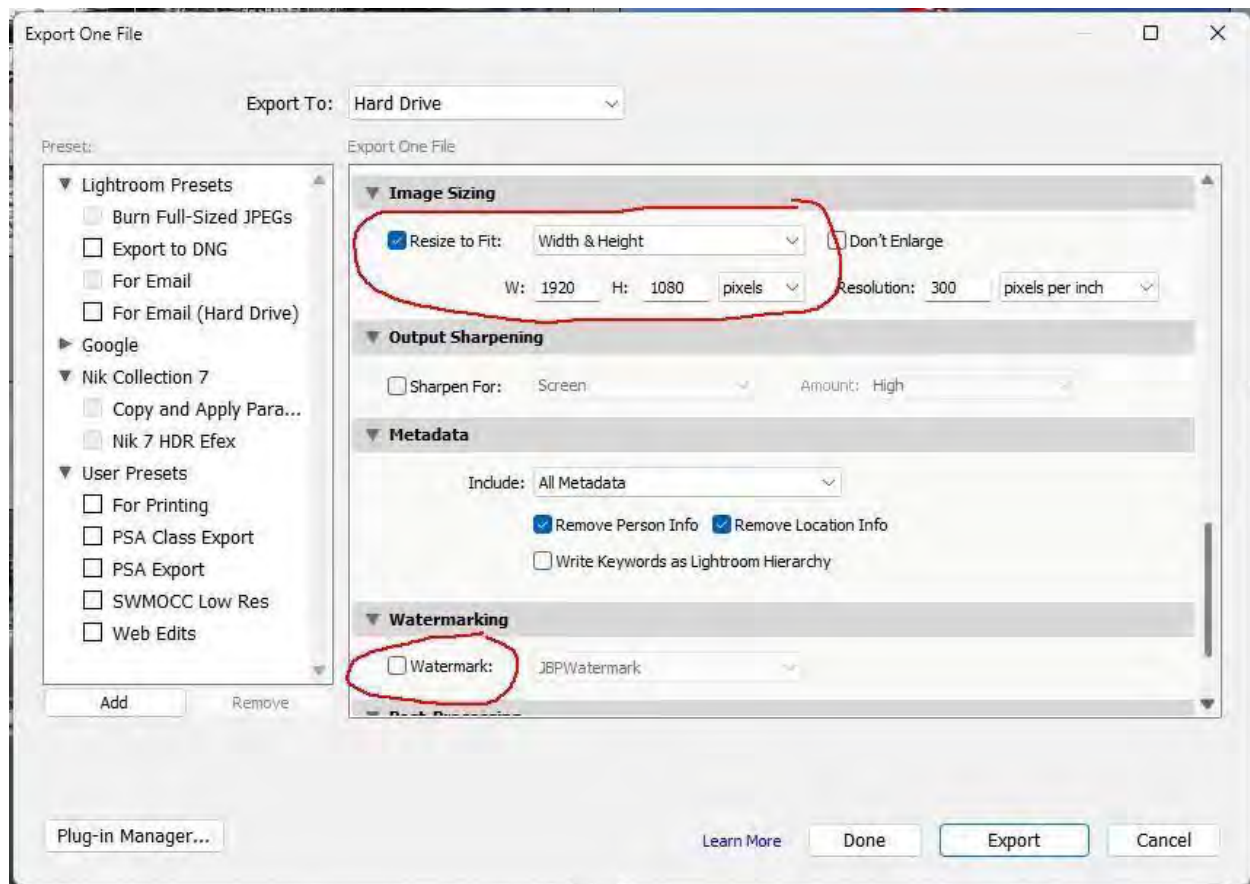

First scroll to the FILE NAMING section, click on the box next to RENAME TO and choose CUSTOM NAME from the drop down menu next to it.

In the CUSTOM TEXT box, simply type in YOUR NAME and the TITLE of your image as the file name.

IN THE SAME EXPORT BOX -

Scroll down a little further to find the RESIZE IMAGE settings

Click on the box next to RESIZE TO FIT and choose the Width & Height option from the drop down menu.

Set the WIDTH to 1920 and the HEIGHT to 1080. Resolution DOES NOT MATTER, so just leave it at the default for that image. Lightroom will automatically choose the right width to fit the height or vice versa.

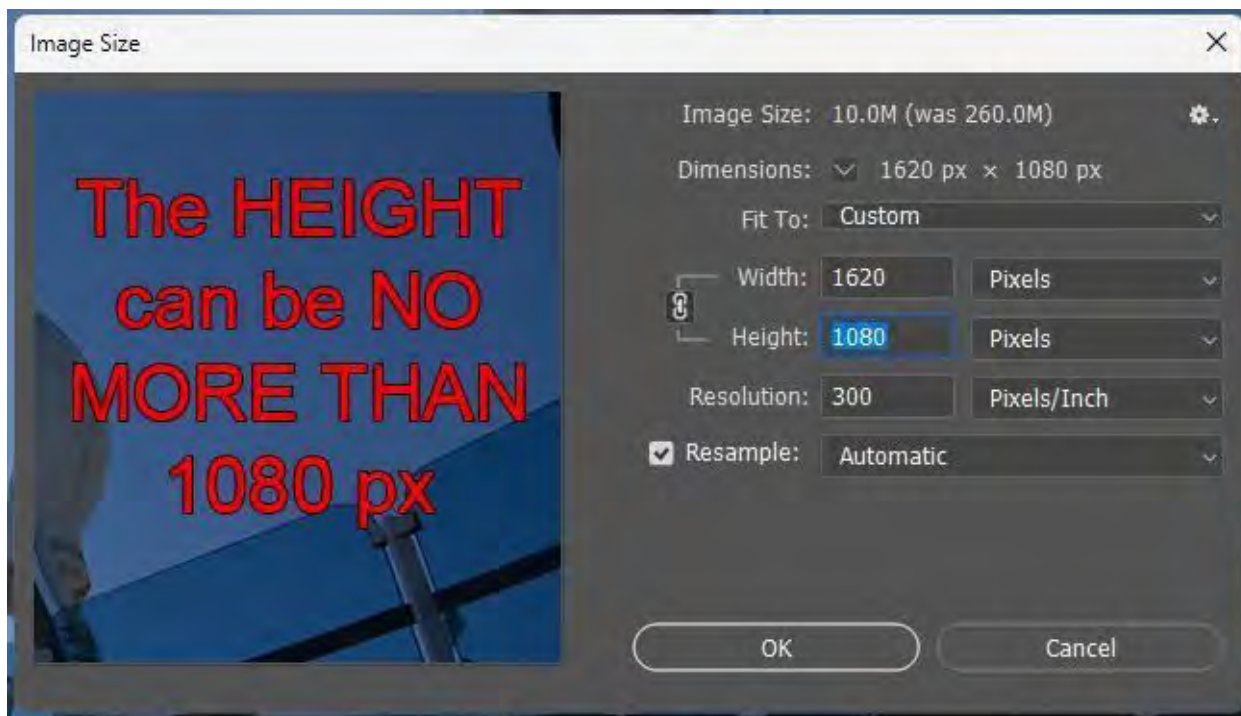

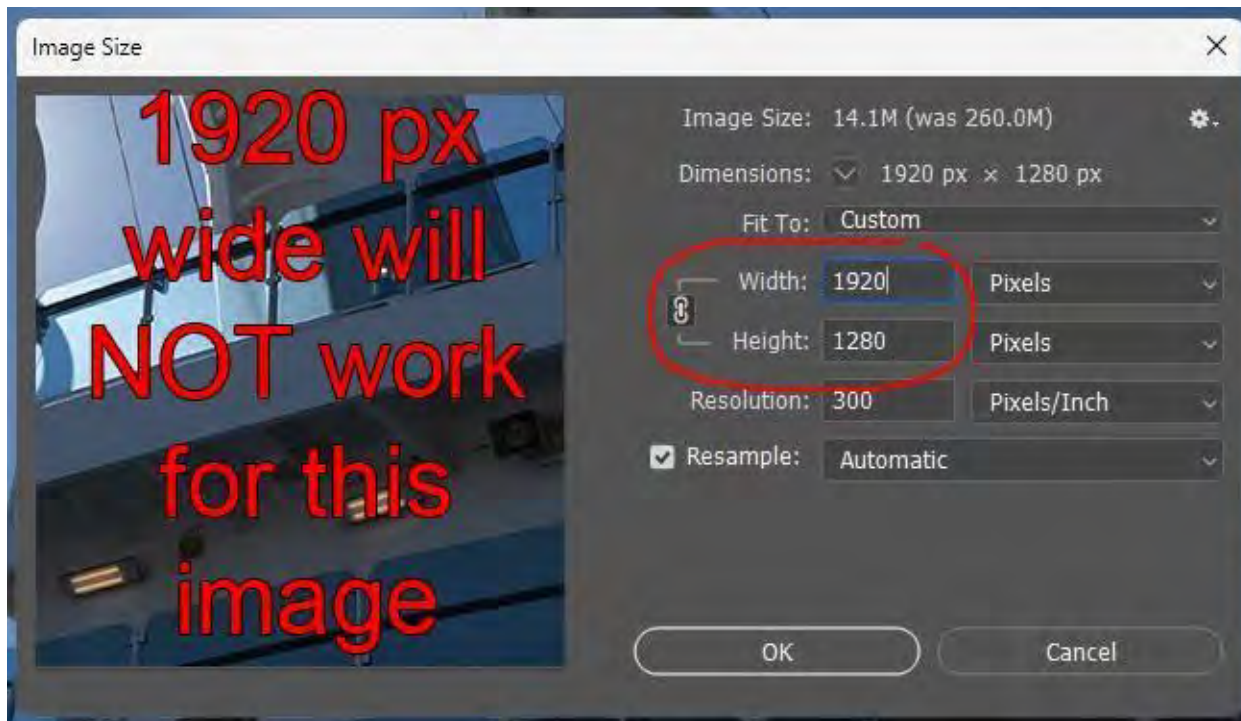

**ALSO - DO NOT WATERMARK YOUR IMAGES FOR COMPETITIONS!!!!!!!!!!!!**

## PHOTOSHOP

To resize your image, go to IMAGE - IMAGE SIZE

Make sure that PIXELS are selected and type in 1920 for the width

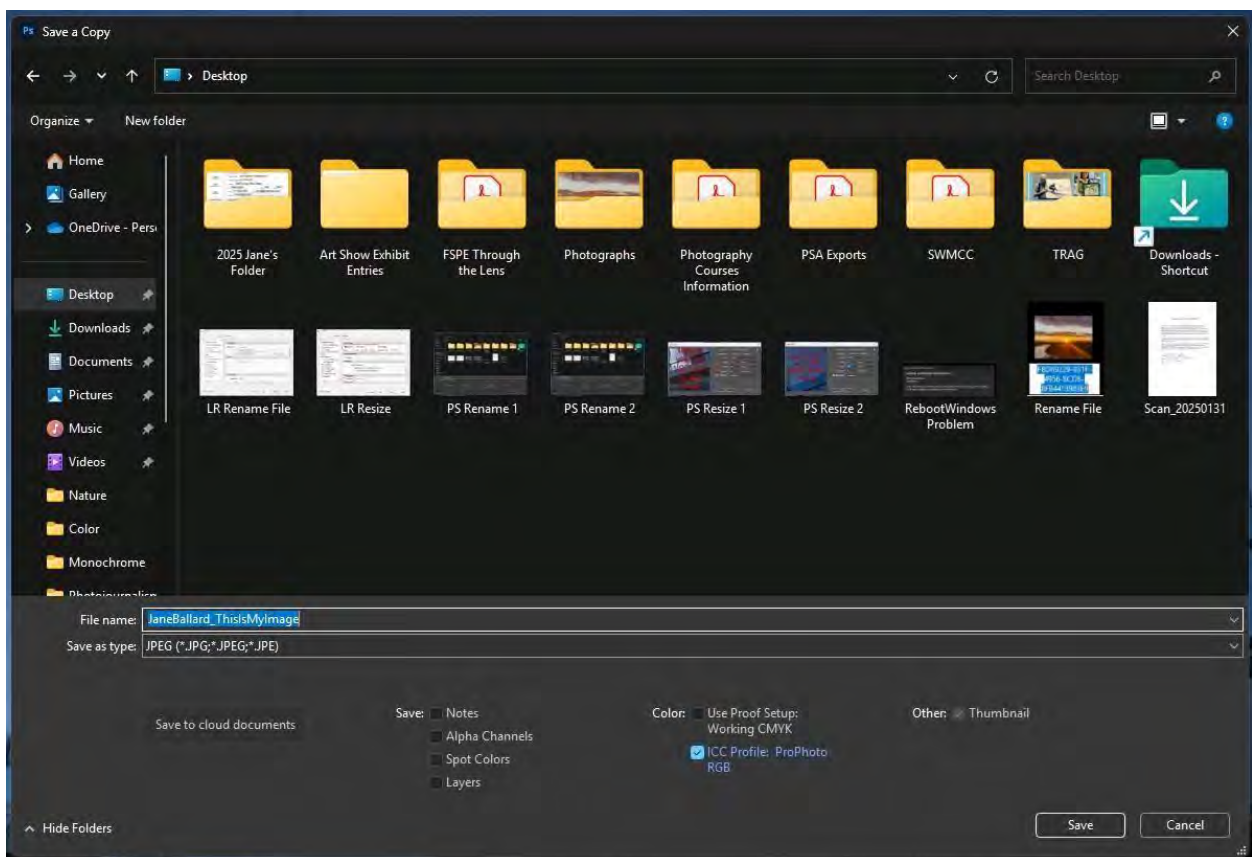

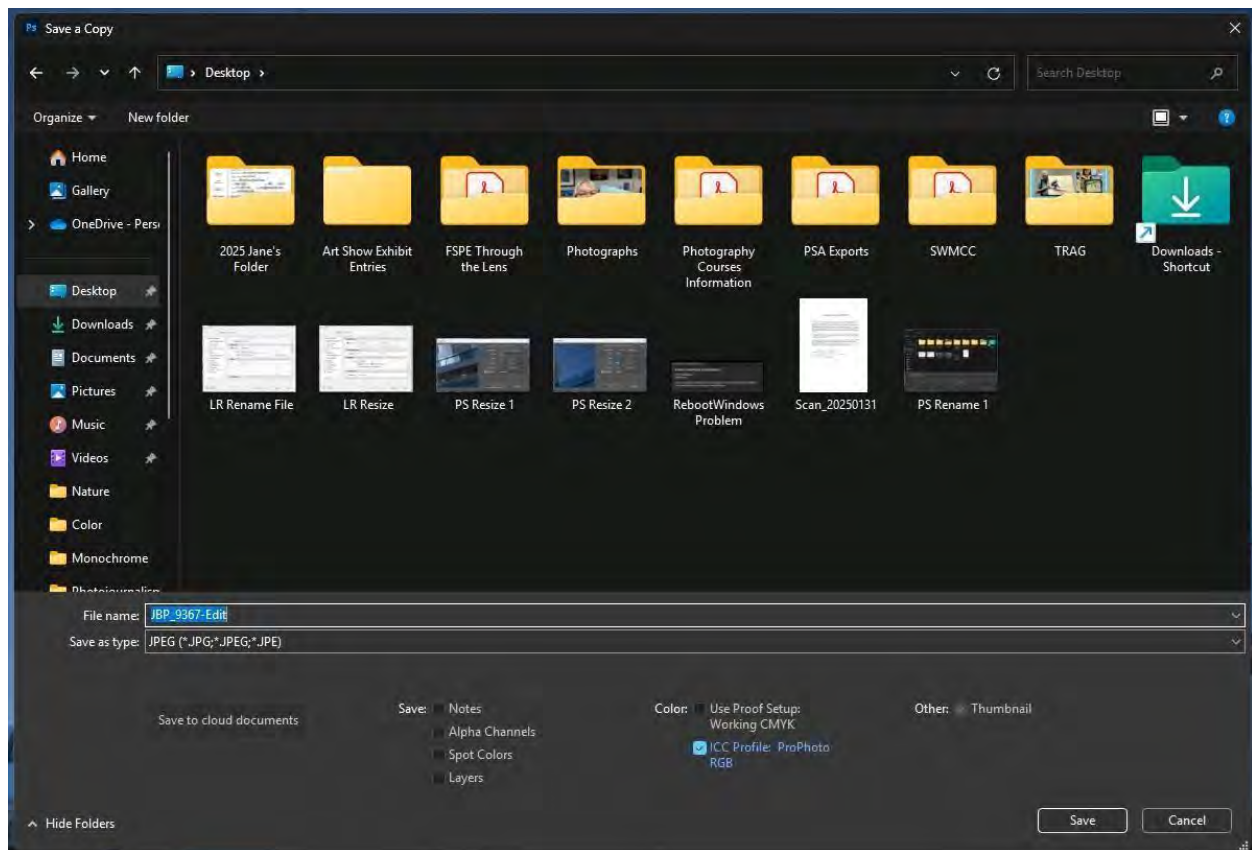

BE SURE TO CHECK THE HEIGHT NEXT!!! This particular image is still too TALL for the competition entry, so you MUST verify that the HEIGHT is 1080 or less!!!

PSA requires that our entries are NO WIDER than 1920 pixels AND NO TALLER than 1080 pixels! It is not an either/or thing, it is BOTH!

In this case, resizing to 1080 tall makes the image now 1620 pixels wide WHICH IS ACCEPTABLE!

When you are ready to save your image, go to FILE - SAVE A COPY - and rename your file to YOURNAME\_IMAGE TITLE and save it as a JPG (NOT a JPG2000)

IF you already have a correctly sized and edited image on your computer that you wish to just rename to send in for a competition, you can simply single-click on the file name at the bottom of the image and type in your new file name.

## MEET OUR MEMBERS

Richard “Buzz” Baumann

Hi—I’m Richard (Buzz) Baumann and happily, a member of SWMO Camera Club since 2018. Like most of us, I grew up with cameras of one kind or another but never took photography seriously enough to produce any meaningful images beyond snapshots. That’s largely because of my orientation to the technical side of photography—optics, camera design and now, post processing. My work through the club has dramatically increased my awareness of the artistic side of photography, having the opportunity to learn in-depth from other photographers and artists in our group. My #1 weakness is artistic awareness and therefore, my strongest motivation is to keep learning composition, lighting and subjective interpretation of a scene all the way out to fully abstract images.

I grew up in Miller, not far from Springfield, and graduated from (then) the University of Missouri at Rolla with a degree in Aerospace Engineering. From there I spent seven years in the Marine Corps as a fighter pilot flying f-4 Phantoms. After coming back from Viet Nam, I finished grad school at Rolla and started my own business after working in technical position for several larger companies. I retired in the early 2000's and moved back to the area after selling my engineering business in Michigan.

I enjoy landscape photography, wildlife closeup/macro and especially B&W long duration shots using ND filters. I have been fortunate to receive some recognition for my images, but more than anything else, I am always looking for feedback and understanding how to produce more memorable and visually interesting work and the Club has helped me tremendously with that.

From here, I want to do more work with unusual lenses and create images that are less literal and more suggestive of stories to be told using the less noticed inherent qualities in what I can shoot vs the sharply defined subjects we normally see. Understanding depth of field, using diffraction filters and unusual lighting are challenges that I need to learn about if I am going to get more artsy and less “journalistic” in my photography. Luckily, the club has room and help for all of that with plenty of resources who understand that side of interpreting the emotion in a scene to help me. I have always wished for the ability to see through the eyes of the great photographers to see what they see as they approach a scene. But I understand that’s it a journey and actually, that’s the fun part and what makes me stay tuned into making my work better.
