## From Your President Susan Gettys

Here are some quotes about the purpose of photography (As published in a newsletter from the Washington Photo Safari):

- Photography takes an instant out of time, altering life by holding it still. *Dorothea Lange*
- A photograph is the pause button of life. *Unknown*
- Photography is the story I fail to put into words. *Destin Sparks*
- In photography, there is a reality so subtle that it becomes more real than reality. *Alfred Stieglitz*
- Photography is the only language that can be understood anywhere in the world. *Bruno Barbey*
- Taking pictures is savoring life intensely, every hundredth of a second. *Marc Riboud*
- The camera is an instrument that teaches people how to see without a camera. *Dorothea Lange*

Do any of these quotes resonate with you?

One of my favorites is, “Taking pictures is savoring life intensely, every hundredth of a second.” I love to travel, and taking photographs of special and favorite spots allows me to go back and revisit that spot over and over again. I don’t have to leave the comfort of my home and fly halfway around the world to be reminded of the wonder I felt in Tanzania. I can just go through my photos and remember what a great time we had amongst all the animals we encountered along the way.

Another favorite is, “Photography is the only language that can be understood anywhere in the world.”

This photo shows a mother’s love for her baby. No words are needed to convey this meaning. The picture tells it all.

What is one of your favorite photography quotes? Post it on our Club Facebook Page to share with your fellow club members. I think you will get some interesting comments on your favorite quotes.

## ***Adobe Lightroom Classic Advanced Workshop***

Saturday & Sunday  
September 28 & 29

***Candlewood Suites  
1035 E Republic Rd, Springfield MO***

Building on last year's Introduction to Lightroom Workshop, Greg will be teaching more about Adobe Lightroom Classic including the latest updates in Lightroom, editing capabilities that you might not know you can DO in Lightroom, and just more IN DEPTH learning about Lightroom!

Lightroom has seen some amazing new features and has brought AI (Artificial Intelligence) to masking, making complex selections and edits automatic and adding greater control over your processing. Along with new features come a new learning curve. The new masking panel incorporates the old Adjustment Brush, Linear Gradient, Radial Gradient, Color Range, Luminance Range and with some cameras Depth Range, with the new Select Subject and Select Sky masking tools. These masks can also be intersected, added and subtracted, and inverted making masking more powerful than ever.

**BRING YOUR LAPTOP WITH THE LATEST UPDATE TO LIGHTROOM  
INSTALLED AND THE KNOWLEDGE OF HOW TO OPEN AND USE IT!**

Classes are kept small (10-12 people.) It's all about personal, individual attention.

## 2ND THURSDAY CHAIRMAN DAVID STOTTS

### Food for Thought

I thought it would be nice to offer a bit of a preview of our next skills night. On our next gathering we will explore product and food photography. I have given this a try a time or two, but all I can say is that this little adventure was trying.

Without a doubt both product and food photography are a sub set of still life. However, as true as this is, it is far from your usual still life. I believe lighting and positioning are the keys to a successful photo in either of these.

Glass is **so** difficult, at least for me, to get right. Glass reflects. It seems to me that anything in the background will find it's way into your image. I tried a shot on our kitchen table one day. The bottle of wine in my shot also included a reflection of our oven and refrigerator. After making a few adjustments I thought I had it, but no, I simply changed the reflections for other things nearby. Another problem was getting the light to properly highlight the shape of the bottle. Wine bottles are simply seldom flat, and that is how my bottle of wine appeared.

With all of this said, a bit of education on this subject should be helpful for us. I wish to thank a couple of our members for suggesting we take a dive into product and food photography, otherwise I would not ever have considered this as a part of our skills night. It is a skill of which I believe we all might need a bit of coaching.

Sadly, here are a couple of my earlier attempts. Please laugh with me, not at me. 😊 And by the way, you ain't going to see the wine bottle. That my friends is the reason for the delete button.

David Stotts

## FEATURED PHOTOGRAPHER FOR SEPTEMBER

### DAVID ESLICK

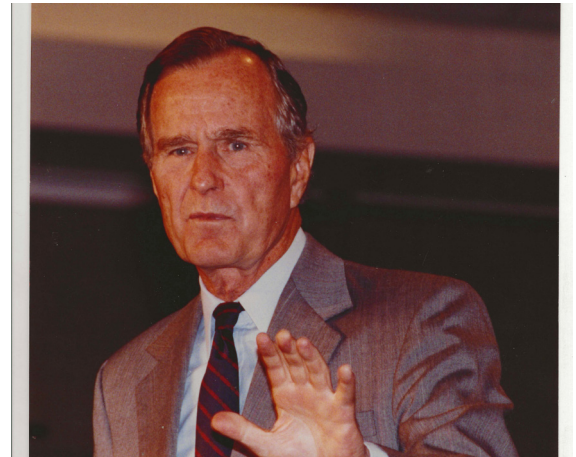

My name is David J. Eslick, I am a Photographer! And have been for three quarters of a century (boy, that makes me sound old). My real jobs were: Meatcutter, (several local area stores), Advertising Coordinator (Associated Wholesale Grocers) and Meat salesman, but my passion is photography and local history. My journey with photography started much like some of yours, with a “box” camera when I was about 10 years old. From there until today has been a long, varied but fun journey.

I purchased my first 35mm camera, an AGFA with a 35mm lens for \$100 from my cousin’s husband, Gene Anderson, owner of Ozark Camera in 1973. A wide-angle lens is great for groups or landscapes, but difficult for portraits and events, so in 1975, I purchased a Pentax ME with a 50mm and 150mm lens. Most of what I know about photography, Gene taught me. He taught me how to develop and print black & white photos in the Camera Center darkroom and my cousin, Virginia, was always there encouraging me to learn. My other mentor was Marylou Brotherhood at Lawrence Photo who helped with my slides, which I later used in my product photography.

In 1976, I established Eslick Photography as a division of Eslick Enterprises. My friend Dennis Smith was running for State Representative, and I was his photographer. This part of my adventure included photographing other Republicans and anything Republican happening in Springfield and Greene County. When my friend, U.S. Congressman Gene Taylor would bring one of Washington DC colleagues to speak, he would always introduce me as “The Official Greene County Republican Photographer”.

I also did product photography for Independent Printing. One, that was the most fun, was for Red Rocket Fireworks, shooting backgrounds for their big packs of fireworks. Another product customer was Hush Puppies Shoes, I did three brochures for them. (And, yes, I did get a pair of Hush Puppies).

Weddings and family reunions were a big part of my business and in 1990, my friend, Bob Glazier, publisher of the Springfield Magazine gave me a press pass, saying “I hope this doesn’t get you in too much trouble”. Well, it didn’t, but I went to a lot of interesting places and met some interesting folks. I was able to cover the first Nike Open Golf Tournament (now, the PriceCutter Open), in 1991. Another Golf Tournament that was fun was the 2014 Bass Pro Legends of Golf, with Arnold Palmer and Gary Player. Another was the Tour of Missouri Bicycle Race in 2007 and 2008. (I rode in a “chase” car with a 2000 Silver Medal Olympian bicyclist). I was with the magazine until it was sold, and I had 5 covers, 4 byline articles and several school class reunion photos.

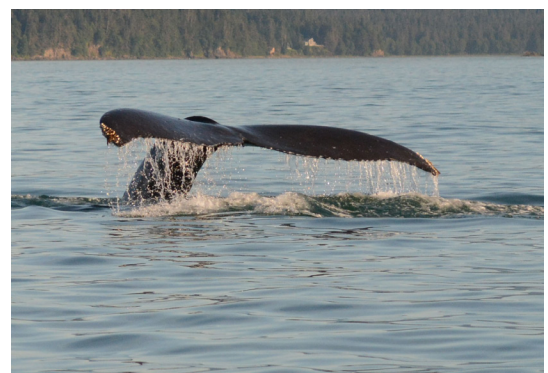

Being a Springfield historian and serving as the Interim Director of the History Museum on the Square, makes me an historic preservationist. I have served multiple terms on the Springfield Landmarks Board and the Greene County Historic Sites Board, and appreciate old buildings and the opportunity for some great architecture photos. My position on the Route 66 Association of Missouri Board gives me the opportunity to photograph and promote points of interest along the Route.

As the Founder of the “Birthplace of Route 66 Festival” that brings over 500 cars and motorcycles and over 65,000 people to downtown Springfield the second weekend of August, I enjoy classic cars and taking photos of them.

Travel photography also intrigues me, with all the awesome vistas, interesting buildings and points of interest, each with a story of its own.

I am the photographer for First Baptist Church, Springfield (the oldest Baptist church in Springfield) and I enjoy photographing the church buildings, the events and the people.

Of course, nothing beats taking photos of our families, especially our great grandchildren.

# Nominating Committee

The Nominating Committee is looking for members to fill the following positions:

- President
- Vice President
- Secretary
- Treasurer
- Competitions
- Field Trips Chair (or Co-Chair with David Eslick)

Duties for each of these positions can be found in this issue. Please contact Elaine at [elmiller.photos@gmail.com](mailto:elmiller.photos@gmail.com) if you are interested or know someone who might be.

## Duties of Officers and Committee Chairs

The following positions comprise the Executive Board for SWMCC. There are four board meetings scheduled per year, one per quarter. Attendance at all board meetings is expected, but a written / verbal report may be given to the President prior to the meeting if unable to attend. Per the bylaws, the chair of each committee shall prepare reports of activities and progress to be presented at each Board meeting.

Note: Many of these positions are meant to be committees. The chair is responsible for seeing that all duties are performed as outlined in the bylaws but does not need to be the person performing all duties.

All Board members will have access to documents on the club's Google Drive. This is where documents should be stored. We have a private Facebook group where we do most of our communication.

### President.

  - Preside at all meetings of the Club and the Executive Board.
  - Appoint all committees except as otherwise provided in these bylaws and instruct them in their duties.

Board members needing to report should be contacted prior to the meeting to ensure their reports have been completed. This is especially important for board members who have indicated they will not be present at the meeting.
- Submit a column (can be one paragraph or a page) monthly to the Secretary for the Photogram.
